

20th February 2018

Dear Parent/Carers

We are delighted to advise that in order to maintain our commitment to the health and safety of students, staff and visitors, works are currently underway to upgrade our CCTV systems within Ark William Parker Academy.

Notices that CCTV is in operation have been placed around our Academy and students have been made aware of this upgrade.

In addition, we have also recently completed works to improve and reinforce our security gates.

Yours sincerely

Stephanie Newman
